FAITH STORY

I grew up in the Missouri Synod Lutheran Church and initially in a single parent home. The issues of acceptance led me to search for a loving God and a church that offered that acceptance. A deep faith in God as a child finally drew me to accept a call to a life dedicated to Christian service. I remember feeling called to Christian Ministry as early as age 8. My skills as a teacher combined with an inner drive to help people discover their ministry purpose and for a deeper peace and life meaning, led me to search out the depth of the Holy Scriptures. Discovering the wonder and excitement of being able to apply God's word and receive assurance and peace of His Presence led me to develop Bible Studies that spoke to those needs in the Christian walk. Seminars were developed by my wife and me to guide Congregations and individuals to discover their ministry call. It became evident early on that specialized ministry would be the result. Establishing a Learning & Worship Center became the Vision and now a reality.
